Job offer, direct employment (not via agency)

### **Maintenance and Repair Technician – Locomotive – 2030 Antwerp, Belgium**

#### **Day Shift! Maintenance and Repair Technician - English Speaking**

Fancy working on one of our diesel-electro locomotives? Here is our offer:

- Regular day shift work with a small international team
- Employment contract for an initial 12months then permanent contract thereafter
- Competitive hourly wage depending on relevant experience
- Occasionally travelling for work

Must have: Experience in maintaining and repair of heavy equipment: naval vessels, large road vehicles, diesel engines and, of course, trains or similar - an absolute requirement.

English is important as all the manuals are in English and our teams have a multinational background.

The Antwerp Workshop team works well together to meet the required deadlines. Flexibility is paramount and is greatly appreciated by the small team in our workshop.

As the railway arm of Caterpillar, we are responsible for the repair, service, and maintenance of our diesel locomotives throughout Europe.

Your permanent workplace is the port of Antwerp. You must be in possession of a valid driving licence for occasional client visits.

Salary: €15.00 - €20.00 per hour and beyond for experienced locomotive technicians

Any questions, please call / Whatsapp Beate on +44 7422 528337

We look forward to your application!

Job Types: Permanent contract, Full-time

Salary: €15.00 - €20.00 per hour

Schedule:

- Day shift
- Monday to Friday

Ability to commute/relocate:

- 2030 Antwerpen
